Athulya Joseph

Senior Full Stack Developer

Berlin, Germany | Mail : athulyajoseph0@gmail.com | PH : +49 15214532946 | LinkedIn : linkedin.com/in/athulyajoseph | Portfolio : athulya-joseph.vercel.app | GitHub : github.com/athulyajoseph

PROFESSIONAL SUMMARY

Senior Full Stack Developer with 8+ years of experience designing and delivering scalable web applications using PHP, Laravel, CodeIgniter, React, and AngularJS. Strong expertise in RESTful API development, frontend-backend integration, and database optimization using MySQL and PostgreSQL. Experienced in personalization and analytics integrations using Adobe Analytics and Adobe Target. Proven ability to build high-performance systems, collaborate across cross-functional teams, and deliver production-ready solutions in Agile environments.

TECHNICAL SKILLS

Backend	PHP, Laravel, CodeIgniter, Core PHP, RESTful API Development, MVC Architecture
Frontend	React, AngularJS, Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap
Databases	PostgreSQL, MySQL, Redis, Memcached
DevOps & Cloud	Docker, Jenkins, CI/CD, AWS S3, GitHub, Linux, Apache
Testing	PHPUnit
Analytics	Adobe Analytics, Adobe Target
CMS & Platforms	AEM, WordPress, Contentful, Magento
Methodologies	Agile, Scrum, Sprint Planning, Technical Documentation

PROFESSIONAL EXPERIENCE

Technical Lead | Aug 2021 - Present

Experion Technologies

- Led full stack development of high-profile client products including Harley-Davidson and xPort (port management platform), delivering scalable solutions using Laravel, React, AngularJS, AEM, and Contentful.
- Designed and maintained scalable RESTful APIs and microservice-oriented backend modules.
- Led a major architecture migration for the xPort port management product, modernizing the codebase to improve scalability, maintainability, and deployment reliability.
- Optimized PostgreSQL, MySQL, and Redis caching strategies to improve API response times and system reliability.
- Implemented Docker-based deployments and CI/CD pipelines for automated releases.
- Integrated Adobe Analytics and Adobe Target for user behavior tracking and A/B personalization, enabling data-driven product decisions for client stakeholders.
- Mentored junior developers, conducted code reviews, and led sprint planning in Agile/Scrum ceremonies
- Worked directly with clients onsite and remotely, translating business requirements into technical solutions and serving as the primary technical point of contact throughout the project lifecycle.

PHP Developer | Mar 2019 - Mar 2021

Qaptive Technologies

- Built and maintained backend services for Loqqat (school bus tracking) and Loqqat Ride (employee commute platform) using Laravel, Angular, and Bootstrap, serving real-time tracking needs for schools and enterprises.
- Developed RESTful APIs and integrated third-party cloud services, enabling real-time data exchange between mobile clients and backend systems.
- Designed and optimized MySQL database schemas to handle high-frequency location and tracking data efficiently.
- Delivered backend support for Magento-based e-commerce projects, including custom module development and third-party integrations

Web Developer | Feb 2018 - Jan 2019

Ridgecone Technologies

- Developed and customized WordPress themes and plugins.
- Implemented PHP-based backend features integrated with MySQL.
- Managed CMS migrations and third-party integrations.

PHP Developer | Jan 2017 - Feb 2018

BC to AD Hyperlink Ltd

- Developed backend modules using PHP aligned with business requirements.
- Contributed to sprint planning and technical documentation.
- Supported testing, deployment, and post-release maintenance.

EDUCATION

Master of Computer Applications (MCA) — M.G. University, Kerala, India | 2011 – 2014

Bachelor of Computer Applications (BCA) — M.G. University, Kerala, India | 2008 – 2011
